District 99 Visit

TOASTMASTERS INTERNATIONAL

About District 99

District 99 comprises the northern parts of Alberta and Saskatchewan. District 99 came into existence on July 1st, 2016. However the journey began long before that when our former District 42 realized that they had become very large and needed to reform into two districts. The southern half of Alberta and Saskatchewan remained as District 42 and the new district became known as District 99.

With nearly 110 clubs and 1400 members strong, our district is a force within the Toastmasters world. We are part of Region 4 which encompasses District 6 | District 22 | District 24| District 26 | District 42 | District 64 | District 78 | District 106 and our District 99.

Club-building Opportunities

Research corporations in your area that do not have a Toastmasters club and arrange an appointment between a company representative (one that has decision-making authority), the Club Growth Director, and the Region Advisor. Provide company background prior to the vist.

Look at different community groups to determine if one is interested in, and could benefit from a Toastmasters club.

Be prepared to work with the RA to learn club building skills and strategies, receive guidance on developing as a leader, identifying more leaders, and create succession plans.

Do look for opportunities to participate and meet the Region Advisor.

More details of the Region Advisor visit will be provided at the Public Relations page on the District 99 Website.

Region Advisor (RA) Visits

Region Advisors support the district leadership team to fulfill the district mission. During district visits, the Region Advisor can help district leaders to further develop skills in marketing, goal planning, district operations, and training other district officers.
