

Division A Report

It has been a fast month since I was appointed Division A Director. Despite a lack of cooperation from the weather we managed to have a successful Division contest meeting in Whitecourt a ½ way point for most of the clubs in Division A. Division A still continues to struggle with distances with clubs extending as far West as Hinton, up north into the Peace Country and a few clubs in the greater Edmonton area. There are three clubs at charter strength, two clubs close to charter strength, one club at 13 members and 10 clubs at 12 or lower in membership with one non-renewing club. We have a lot of work to do in Division A but I am confident that by June 30 we will be a strong division with most clubs at or near Charter strength. Division A has dedicated Area Directors working with their clubs to ensure a successful year. After the conference it will be time for the second round of COT. I am looking forward to working with the Division A AD's to provide clubs the help and resources they need for a successful year.
