

DIVISION E SPRING REPORT 2017

1. Second round of COT/LT held December 3, 10 and January 28 = 39% trained for Division E. Names had been submitted to our Statistician in February that had not been trained at COT but had been done by a member. One members position supposedly trained was not in the province during this time and on checking with member, they had not been trained. One member trained for 3 positions but had not attended one COT session. We must be careful with irregularities when it comes to training, and should only be verified by the Division Director who submits the results to the Statician not by another member no matter their title.
2. University of Saskatchewan Nutrition and Pharmacy Speechcraft January 14 to February 7 a success. 113 students participated. 11 Saskatoon TM clubs participated, 3 for the very first time.
3. 3 clubs have “low minimum requirement not met yet” with 1 club not submitting dues to date although they have 8 members. This is a corporate club going through restructuring.
4. One club has struggled from beginning of year even though the September Open House was a success. It had 3 paid then 8 paid but not active, no meetings held at all. To date 5 people paid but not active, previous member of this club was told to be the Club Coach but cannot do so as this is a noon meeting and cannot take 2 hrs for lunch due to location of job.
5. Coach appointed this month to Innovation Place TM Club. All parties happy here.

6. Division E Spring Contest was held April 8. Teresa Young was a guest to promote Convention. She was also a Judge for the competitions.
7. Division E Area visits slowly under way.
8. Surprises happening with a possible Division G, members and I only heard of this when email was received from Marg Faryna on April 16. Webinar planned for evening of April 17. Division E members annoyed by lack of communication and communication on short notice from D99 when this involves them, their clubs and Division.
9. Facilitation Team under Penny Nilsen are trained and ready to start there year of COT/LT. June 10th is our date to start with this new concept for training.

Respectively Submitted,

Jackie Diemert

Division E Director
