

Division F – April 2017

Educational Awards

Ribbons that were handed out to me have been given out to members at area and division contests.

Membership

All areas in the division have increased membership numbers to their clubs. There are 2 new clubs in Area F58 that reduced their number of members after being chartered early in 2016.

DCP Goals

All areas are working towards their goals. Right now, we have 2 in Area 12 that are distinguished, 0 in Area 14, 1 in Area 17, 1 in Area 30 and 1 in Area 58

Club Officer Training

TLI was put on December 1 with 61 Club Officers Trained. Another one on February 11th with 31 Club Officers Trained. Both at OEM Manufacturing. It worked well with help from the OEM club officers and members. Both were very successful.

Contact with Area Directors

We have met as a Division many times. We have been in contact with each other. They have been encouraging and helpful to one another. Some are working on their HPL's as well.

Contests

All contests are complete and were very successful. The Area Directors were able to help one another to put on the contests. They also helped at Division Contest.

Clubs

Health Aware Toastmasters club, which was once closed, is now reviving and slowly getting back on track, with 8 (3 of them renewing) membership payments submitted.

Rebecca Cuthbertson Hulst has stepped up to become their club coach, and will join the club as a member after being officially appointed as club coach. Marg Faryna, Peter Kossowan and Dave Rodwell are also providing assistance to the club.

Clubs needing coaches;

F12	8364 Forward Thinkers Club	12
