### **Community Service**

Our Toastmaster of the evening will lead us through a meeting during which we will have the opportunity to hear stories of real life experiences of community service.

*Community service promotes leadership development as well as cultural information and skill acquisition. It is an opportunity to gain a greater understanding of the various roles in a community – the behind-the-scenes players. The call to community service is a call to reflect on the difference one can make in one's community and in society. Community service opportunities vary as do the connections with different people, environment and situations. The impact of our contributions to our communities and toward those in need of service can make a difference in the lives of others, as well as our own.*
