

Division C had 3 division director in the las 5 months.

I'm honored to serve and support the district. Thanks for the confidence.

The Area Directors are visiting clubs and working on the reports.

I'm pleased to see the clubs are taking actions to solve their challenges with membership.

In particular I want to recognize two clubs which are making changes:

One, is opening their doors to community after years of been a close club.

Other, is working hard with new engaged members to rebuild the strength of their meetings and their membership.

The Division Council meeting is my first priority after reports are completed.

From my experience meeting once a month make a difference in the relations with Area Directors and to succeed in the activities.

We will be working on the Training and Spring contest ahead of time.

Training is the most important aspect of our support to officers.

All the efforts and time we put to provide a great training experience will pay off in the quality of our club meetings.

Three out five area directors couldn't come to Conference.

Respectfully submitted

Omar Nef, Division C Director
