

### **“Traditional Education Program Planning.”**

District 99 recently welcomed the new education system Pathways; the burning question from many Toastmasters is: Can I finish my current projects? The answer is YES! Now is the time to set goals, building a plan to finish projects in the traditional education program. Whether you’re working on communication, leadership or Distinguished Toastmaster (DTM), this session will provide the tools and resources you need to complete your projects. Let’s Reach for the stars together!

Crystal Douglas

I am a passionate Toastmaster who loves to travel, all things metaphysical and riding my motorcycle, Celeste. My passion for Toastmasters began in November 2014; the most rewarding aspect is mentoring- supporting others as they blossom into the best version of themselves. Knowing I had a part in their journey is a humbling experience. When I’m not attending Toastmasters, travelling, talking to crystals or riding my motorcycle you can find me at ATCO as their Health & Safety Administrator in the Pipelines & Liquids Division.
